Mr. W. M. Washburn Injured in Auto Accident.

Late on Saturday evening, while Mr. W. M. Washburn was proceeding east on the Baseline in his Willys Knight sedan, and had got to the "winding road" sign at the Beuerlein crossing, he met a Chevrolet touring coming from the City and driven by Mr. Gehlert of Golden Spike. A head-on collision occurred. The heavy impact wrecked both cars, the Washburn car having the chassis knocked from the frame, and the Chevrolet touring being put hors de combat.

Mr. Washburn was removed in an ambulance to the Misericordia hospital, in Edmonton; where it was found his injuries consisted of a broken nose, and several scratches and cuts on his face where he had been thrown against the windshield. Mr. Washburn was alone in his car.

The Chevy touring had two passengers, with the driver, the three escaping with slight injuries.

Mr. Washburn is in the same ward with his father Mr. P. S. Washburn; the latter having been taken in two months ago suffering from a broken hip bone.

In Again—Out Again!

There seems to be no end to the stunts a motorist can pull—and survive. Early Saturday morning a west bound car (or truck) shortly after passing the gate of Mr. D. Rivest, on the Baseline, crossed over to the south side of the grade; took to the ditch; struck a telephone pole, dismounting it; proceeded about 20 feet; rammed thru the barbed wire fence of Johnny Ulmer's farm; described a circle on the plowed field, and came back to the highway the way it entered.

No report of the accident have been made; and the only other souvenirs of the excursion, than those stated are shreds of a leather glove left on the barbs of the fence wire.

The Beach's Zoning Project.

The new Zoning bylaw for Edmonton Beach district provides, among other things, for dividing the land in a stated area into three classes: Residential, commercial and agricultural.

The restrictions in the residential area are rather strict, limiting the use of the land to 1- or 2 family dwellings, summer cottages, play grounds, parks and such like.

In the commercial area there may be erected stores, hotels, boarding houses, offices, dance halls.

In the agriculture division auto parks may be permitted; but the building limit in this area is to be one dwelling to the acre.

It shall be the duty of the Sec-treas. of the Municipality to enforce the provisions of this Bylaw.

GAS relieved

WHAT most people call indigestion is usually excess acid in the stomach. Food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude help. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention, it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate with no harmful after-effects.

Once you learn this, perfect way you'll never deal in any other manner with the headaches, gas, bloating, nausea, dizziness, indigestion, biliousness, etc., due to an over-acid stomach and bowels.

Be sure to get genuine Phillips'. Look for the name Phillips on the bottle. All druggists sell it—50c.

(Made in Canada)

Alberta Railways Act

Measure To Extend Time For Two Years For Completion Of Northern Road

Third reading was given in the House of Commons to a bill respecting the Northern Alberta Railways Act.

The object of the measure is to extend the time for two years for the commencement and completion of the main line of the Edmonton, Dunvegan and British Columbia railway from Spirit River, Alberta, "by the most feasible route and in a generally westerly direction of a distance of 102 miles, more or less, to a point in townships 78 or 79, range 18, west of the sixth meridian in British Columbia"; and for a branch line of the Central Canada Railway from near Grimshaw, Alberta, in a northerly direction to the northern boundary of Alberta.

FASHION HINT

"How to make my new short skirts conform to the old length was a problem to me until I hit on this plan. I dropped the hem and as the part that had been turned under was darker than the rest, I dyed the skirt grey, after which I washed the goods, following directions in the Diamond Dyes package."

"I used the Diamond Dyes for the redyeing, of course. I have dyed many things with these 'wonderful' things. They have saved me many dollars and have never failed to give 'perfect' results—smooth, even colors—fast to wash and washing. Friends think my things are new when I redye or tint them with Diamond Dyes. They do give the most gorgeous colors."

Mrs. G. C. Levis, Quebec.

The Cutworm Menace

Pale Western Cutworm Eggs Are Hatching In Infested Areas

A recent examination of fields in the area expected to be infested with pale western cutworm has shown that in some cases the eggs are beginning to hatch. This is especially true in the areas that have recently been visited with light rains or snow followed by warm weather.

The hatching of these eggs at this time will answer the question that has been in the minds of many farmers regarding the effect of the open winter on the pale western cutworm. There seems to have been a general impression among the people in the infested areas that the peculiar winter would effectively control the cutworm. This was to be accomplished either by the eggs being killed or the cutworms being killed. There is very little evidence from experimental work to show that either is possible.

The presence of pale western cutworm in the field can be easily determined in those fields which have some vegetation such as wild oats, volunteer grains, grasses or weeds present. The young cutworms feeding on this vegetation will eat holes in the leaves and some leaves may be cut off above the ground. The evidence of feeding is much easier to find than the cutworms themselves since they are at present very small and inconspicuous.

Fields which have such vegetation showing signs of cutworm feeding can not be seeded to crop with any hope of having it mature unless the season turns out to be exceptionally wet. Such fields might better be cultivated thoroughly and worked up as first class summer fallow for next season. Where this land cannot possibly be spared for summer fallow it should be cultivated thoroughly throughout the early spring and seeded to late barley or oats after the middle of June. The date of this seeding will depend on whether or not cutworms are still active in numbers in the field.

Information regarding the pale western cutworm may be obtained by writing to the Dominion Entomological Laboratories at Lethbridge, Alberta; Saskatoon, or Indian Head, Saskatchewan; Trepank, Manitoba; to the University of Alberta at Edmonton; the University of Saskatchewan at Saskatoon; or the Provincial Departments of Agriculture at Regina or Edmonton.

Worms cause fretfulness, and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Presented With Horses

Mounted Policemen At Empire Trade Fair At Buenos Aires Receive Gift

Four Royal Canadian Mounted policemen now on duty in the Canadian pavilion at the British Empire trade fair in Buenos Aires, have each been presented with two riding horses for their personal use. A cable to this effect, received at the Department of Trade and Commerce from Buenos Aires, does not make known the donor of this munificent gift but it is believed the eight horses were presented by the Argentine government.

The four members of the R.C.M.P. sent to the trade fair are: Sergt. J. R. Paton, M.C., of Victoria, B.C.; Constable Carstairs, of Medicine Hat, Alberta; Constable Carmichael, and Constable C. G. Fairman, both of Ottawa.

Previous reports from Buenos Aires said the four "Mounties" had captured the popular fancy in Argentina, a country noted for its horsemanship.

Awarded Research Council Bursary

Miss Edith May Lyons, of the department of zoology, University of Manitoba, has been awarded a bursary by the National Research Council of Canada. Miss Lyons is qualifying for her master of science degree this spring. She will continue with post-graduate research work at the University of Toronto next year.

Sweden's railway electrification programme is expected to prevent a national unemployment problem for at least two years.

Deplores Child Labor

Says Canada Not Fulfilling Provisions Of Versailles Treaty

Charges that Canada was not fulfilling provisions to protect labor, as laid down in the Versailles treaty, were made last night by J. S. Woodsworth, Labor M.P. for Winnipeg North Centre, at the annual meeting of the League of Nations Society at Toronto.

Clauses covering an eight-hour day, minimum wages commensurate with the living standards of the country in which the worker lives, elimination of child labor and the right of labor to organize, had not been lived up to, he claimed.

According to the census, he said, Canada employed almost twice as many children as the United States. Of every 1,000 persons engaging in gainful occupations, 23 were under the age of 16, while in the United States only 13 under 16 years were employed per 1,000.

B.C. Peach Culture

It is expected that about 20,000 new peach trees will be planted in the Oliver district of British Columbia this year.

REPRESENTATIVE WANTED

LADIES WANTED TO DO PLAIN and light sewing at home, whole or spare time. Good pay. Work sent any distance, charges paid. Send stamp for particulars. National Manufacturing Co., Dept. 6, Montreal.

The Canadian Constitution

Is the constitution of the Dominion of Canada, being the British North America Act, 1867, out of date?

Recent decisions by the higher Provincial courts of law, the Supreme Court of Canada, and the Privy Council all give point to the question.

In other words, it is a hard and fast written constitution drafted in the eighteen-sixties of the nineteenth century, long before the days of the automobile, radio, airplanes, and modern big business suitable to our present twentieth century needs? Nay more, is the present distribution of powers and authority between the Dominion Parliament on the one hand, and the various Provincial Legislatures on the other, the best arrangement under which to carry on our public business today, not to mention possibly even more complicated developments in the years to come?

Unlike Great Britain, which has no written constitution but is governed by a Parliament guided by precedent built upon precedent down through the ages, and which is, therefore, free to meet changing conditions as they change, Canada is bound by a formal document.

Furthermore, among all the self-governing Dominions of the Empire, Canada alone does not possess the power to amend its own constitution. That power rests solely with the Parliament of Great Britain.

The constitution of Canada was drafted just as the great American civil war was drawing to a close, and the Fathers of Confederation had ever in mind the conflict which arose in the republic to the south between the Federal authority and the advocates of State rights. The constitution of the United States is founded in the principle of State rights, and the Federal Government has authority in regard only to those matters specifically delegated to that Government. Where no specific delegation of authority as between the Federal and State authorities is made, the authority automatically rests with the State. The Civil War resulted from the contention of the southern states that the Federal authority was interfering with and usurping certain of their State rights.

The Fathers of Confederation consequently drafted the B.N.A. Act on exactly the opposite principle. In Canada, the rights and powers of the Provinces are distinctly set forth and limited, and all matters not so specifically stated belong of right to the Dominion.

There are, however, certain subjects in regard to which authority is divided, as, for example, incorporation of companies. The Provinces possess the power to incorporate companies for purely Provincial purposes, while the Dominion incorporates for Dominion purposes. Both are intensely jealous of their rights in this respect, and, as a result, there is continual dispute. For example, most Provinces are anxious to curb the stock-selling activities of corporations, and to bring them under strict government supervision and control. They have, therefore, enacted what are commonly termed "blue-sky" laws. But the Dominion has contended that such laws cannot be applied to Dominion incorporated companies. The result is that any company desirous of evading such Provincial restrictions takes out a Dominion charter.

There has now arisen a dispute between the Dominion and the Provinces as to which authority can exercise control over radio broadcasting and reception. The Dominion has exercised that right to date, but it is now challenged by the Provinces. It should be established by a Privy Council decision that the Provinces are in the right and the Dominion wrong, under the old B.N.A. Act, would it be a good thing for Canada to have radio control cut up into nine pieces?

As a matter of fact, in a country of immense distances, divided by natural geographical barriers, it is not one of the handicaps of our national life that, in regard to many matters, lack of unity results because of Provincial jurisdiction in such matters which would be overcome through unified Dominion control?

On the other hand, there is the tendency on the part of Ottawa to take control over, or interfere with, subjects which are clearly matters for the Provinces. Constitutionally speaking, such a matter as Old Age Pensions belongs to the Dominion, but by enactment of the Dominion Parliament it decreed that it would contribute a certain proportion of such pensions if the Provinces adopted the plan. Some of the Provinces have done so; others have not. Such a pension system once established by a Province cannot easily be done away with, but there is nothing to prevent the Dominion Parliament from repealing its enactment at any time, thus leaving the Provinces to face the whole of the financial burden. Similar action has been taken at times by the Dominion in such matters as highways construction, technical education, and grants for this and that. Provinces have embarked on these enterprises, only to have Dominion assistance withdrawn later, to the financial embarrassment of the Provinces.

The question that naturally arises is: Has the time not arrived when the constitution of Canada should be overhauled and brought up-to-date? Should not representatives of the Dominion and of the nine Provinces meet in conference and consider the whole subject with a view to clarifying the atmosphere and removing so many of the causes of present constitutional cases before the courts? And is Canada not just as capable of amending its own constitution as is Australia, South Africa, or the Irish Free State? Or must we remain in the eyes of the rest of the world as an inferior Dominion?

Suffered From Heart Trouble

Became Weak and Run Down

Mrs. Wm. Dlotte, Glensandfield, Ont., writes:—"For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble so I got two boxes and after taking them I was again feeling fine, and always recommend H. & N. Pills to anyone complaining of heart trouble."

May Harness Natural Gas Going To Waste In Turner Valley To Generate Electric Power

Millions of feet of natural gas now going to waste every day in the Turner Valley, Alberta, may be harnessed to generate electric power for industrial and domestic purposes. A proposal to do this has been submitted to the Alberta Government by a British corporation, according to press reports. It is stated that the corporation offers to spend \$10,000,000 on the project at the outset and a total of \$100,000,000 within 15 years and to begin work on the construction of a plant within 90 days from the time the approval of the Alberta Government is given to the proposal. The plant will be capable of generating 70,000 horse power of electricity within a year.

The plan for this new project, as outlined, is to collect the waste gas in Turner Valley into one pipe line running to the power house where it would be used to turn specially-designed turbine wheels for the generation of electric power for the market would be secured. In industrialization of southern Alberta. The power house would be located at a point probably 30 miles east of Turner Valley and it would not depend alone on gas from Turner Valley but would utilize also gas from other fields. The corporation proposes, it is stated, to offer the electric power generated for sale in the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, and also in the border states of the United States. The Government of Alberta is asked to pass legislation compelling all oil companies or individuals, whose gas is escaping and not being put to use, to supply the corporation with such gas at a price to be fixed through the Public Utilities Board. In consideration for the establishment of such a plant as proposed, an exclusive franchise for a period of 99 years to the corporation is requested. Provision would be made, if desired, for the Alberta Government to take over the plant on an equitable basis at some time in the future.

The scheme for utilization of the Turner Valley and other waste natural gas would produce electric power at a cost of about three-tenths of a cent per kilowatt-hour.

Increase in Poultry

Value Of All Poultry In Canada Placed At Fifty-Four Million Dollars

Poultry keeping is on the increase in Canada. The total number of poultry on the farms in the Dominion at the end of last year was estimated at 60,785,000, of which 56,247,000 were hens and chickens; 2,399,000 turkeys; 1,160,000 geese and 989,000 ducks. The value of all these birds is placed at \$54,832,000. Two years ago the total number of poultry was 53,779,000. Poultry are successfully raised commercially in all of the provinces of Canada. The principal centres of the industry is the Province of Ontario.

A Quick Thinker

Farm Labourer, to him @roscaringe Farm labourer, to hiker crossing a field: "Didn't you see the notice saying pedestrians ain't allowed here?"

Hiker (with great presence of mind): "I'm not a pedestrian. I'm a Congregationalist!"

Labourer: "Oh, that's different. You can go on."

Manager: "I have just signed a contract for you to appear against Smith?"

Champion: "I can't box him. We are enemies."—Buen Humor, Madrid.

Saskatchewan Coal Mining

New Regulations Governing Leases Are Made Public

Reduction in the maximum, and increase in the minimum area allotted to any one lease is provided for in the new coal mining regulations as published in the April 18 issue of the Saskatchewan Gazette.

Under the old Dominion government regulations the maximum area allowed was 2,500 acres, while the minimum was 20 acres. Only one location was allowed to any one person.

The new regulations provide for a maximum area of 640 acres in any one location, but provide for three locations to a person. Thus the total area provided for under the new scheme is 1,920 acres. The minimum size of a location is 40 acres.

There are little other changes in the regulations, except that under the present plans, any lease must have a clear sheet with the department before he can obtain a new location or have an assignment registered.

Did Not Choose To Speak

A young woman who wished to engage Calvin Coolidge in conversation, when he was president, told Mr. Coolidge that her father had laid a wager that he couldn't get him to utter three words. She expected that this would start him talking. But he said quietly: "Dad wins!"

A. R. Judson, who is farm manager of the Dauphin zone for the Canada Farm Finance Corporation.

Blind Will Benefit By New Invention

Instrument Produces Raised Letters From Ordinary Pages

Robert E. Naumburg, of Cambridge Mass., has demonstrated for the first time a "printing visagraph," an instrument that produces magnified, raised letters from the pages of ordinary books. The visagraph reproduces large embossed letters on a wide roll of thin aluminum foil, with the result that the finished product corresponds in some respects to the Braille system. Naumburg estimates his machine will increase the reading range of the blind a thousand-fold.

FASHION

No. 273—For Smart Matron. This style is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. Size 38 requires 4 1/2 yards of 39-inch material with 1/2 yard of 10-inch lace and 1/2 yard of 39-inch lining.

No. 252—Jacket Suit. This style is designed in sizes 14, 16, 18, 20 years, 36 and 38 inches bust measure. Size 16 requires 3 1/2 yards of 39-inch material for jacket and skirt with 1 1/2 yards of 39-inch material for blouse and jacket bands.

No. 200—Expresses Good Taste. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 39-inch material.

No. 244—For Wee Maids. This style is designed in sizes 2, 4 and 6 years. Size 4 requires 1 1/2 yards of 39-inch material with 1 1/2 yards of binding.

No. 661—For Smart Junior. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 39-inch material with 1/2 yard of 39-inch contrasting.

National Research Council Investigates Problem Of Effective Vaccine Against Tuberculosis

Preparing Attractive Display

Quebec Is Taking Large Space At World Grain Show

His Excellency the Governor-General has consented to act as chief patron of the world grain exhibition and conference which will take place at Regina in the summer of 1932.

One of the most attractive displays in the educational section of the exhibition will be that from the Province of Quebec. It has been decided to take a space of 200 feet frontage in the Exhibition building in order to give the thousands of visitors an idea of the agricultural activities of Quebec.

The centre feature of the exhibit will be a Quebec farm, complete with buildings, live stock, fields, sugar bushes, etc., flanked on either side with exhibits of natural resources of the province, including mineral, lumber, power development, handicraft and manufacturing products.

Argentina is the sixteenth country to officially accept the invitation of the Canadian Government to attend the Exhibition and Conference. The complete list of participants at present is as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Siam, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina.

No Hearsay Evidence

Court Case That Was Settled In Common Sense Way

It is well to see things done in a sensible way. To illustrate: In an Eastern city there was a queer case in court. One farmer claimed that a fire, started in the bush by his neighbor, had spread to his property and had spoiled the land by burning off the top part of the soil.

Instead of arguing for days, officials, solicitors, and witnesses, took a trip out to the property in question, an' along with them they had spades and shovels. They actually went to work and gouged holes in the ground to see if the damage was as serious as claimed, and to find out exactly what had taken place. Returning to court, the decision was made that the fire damage claim had not been sustained.

That was direct action and common sense.

Not Looking For Miracles

Western Farmers Will Fight Way Back To Prosperity

"Twenty-five years from now we will be growing a good deal more wheat than today, and selling it in the world market," said Hon. Duncan Marshall, one-time minister of agriculture in the Alberta Government, addressing the Eastern Canada Livestock Union at Toronto.

"Taken as a whole, can you say that the farmers in the Canadian West are not looking for any miracle to happen, or anybody to turn the country's economics upside down. They are going to win through better days, as they have fought through earlier depressions," he declared. Mr. Marshall had just returned from a month's motor tour through the West.

Measurements Accurate

Geodetic Survey Of Canada Made By Line and Triangles

Accurate measurements can be made across country by means of a measured line on the ground and a system of triangles. The triangulation of the Geodetic Survey of Canada, Department of the Interior, is conducted with the greatest degree of accuracy. Its usage involves the determination of the size and shape of the earth, the location of international and provincial boundaries, and furnishes points of control for the general maps of the country. Adjusted geodetic points in great numbers are available to the public in every province of the Dominion.

The American golden plover, which breeds in Arctic America, migrates to the south of North and South America, wintering in Patagonia.

"According to the committee of the National Research Council on tuberculosis research, much work remains to be done before the problems of an effective vaccine against tuberculosis are solved."

This statement was issued following an important conference on the subject in Ottawa, in which the leading doctors specialising in the study of tuberculosis took part.

The statement sets forth that the committee agrees "B.C.G." confers a degree of resistance to tuberculosis but the nature and extent has not been clearly demonstrated. Further studies are to be conducted to clear up these points definitely. About 1,000,000 infants have been vaccinated against tuberculosis. "B.C.G." is the vaccine of the Pasteur Institute of Paris.

The statement describes the work accomplished as follows: "B.C.G." (named after Prof. B. Calmette, the director of the Pasteur Institute) and his colleague, Guérin, has to date been used in various countries to vaccinate a total of approximately 1,000,000 infants against tuberculosis. In the effort against bovine tuberculosis it has been widely discussed as a preventive measure that would eventually make unnecessary the expensive method now commonly employed of destroying animals reacting to the tuberculosis tests.

"Canadian researches on tuberculosis have been widely discussed in both Europe and America, particularly those of Dr. E. A. Watson, of the animal diseases research station, Dominion Department of Agriculture, at Hull, Que., who has challenged claims put forward by Calmette; Dr. A. C. Rankin, of the University of Alberta, and Dr. J. A. Baudouin, of the University of Montreal, whose work has tended to support Calmette's contention, and Dr. G. B. Reed, of Queen's University. Dr. Watson and Dr. Rankin have carried on extensive experiments with cattle, and Dr. Baudouin has supervised the inoculation and study of infants in Montreal.

"Dr. Reed has recently made an important contribution to the knowledge on the subject and will publish his results shortly."

Dr. R. A. Ferguson, director of the Fort Qu'Appelle Sanatorium, Fort San, Sask., reported on the tuberculosis investigation that has been carried on under the auspices of the committee among the Indians of that district. He said that a family history of the Indians showed that within three generations there had been deaths from tuberculosis in nearly every family on the reserve. The worst tuberculosis epidemic was between the years 1880 and 1905. To indicate the effectiveness of the work that was now being done, Dr. Ferguson reported that, while the incidence of tuberculosis among the Indians in 1925 was twenty times that of the surrounding white population, it was today only thirteen times, a reduction of one-third during that period.

Dr. H. M. Tory presided at the conference and 25 men and women engaged in the study of the disease took part.

Grist Mill For Moose Jaw

Western Grist Mills Limited of Moose Jaw has started the erection of a 100 barrel mill and expects having it completed in time to handle the 1931 crop.

A Magic Soap

How the Fairy Queen's Christening Gift Was Found

Once upon a time the Fairy Queen was asked to be God-Mother to a very important Baby Prince, and she wanted an especially nice Christening Gift. So she sent her five cleverest Elves to fly all over the world in search of wonderful scents and rare perfumes and rich oils for a magic soap that would make the Baby Princess as lovely as the day is long.

Well the first Elf flew to France, and Algeria, and Bulgaria, where the loveliest roses grew, and asked them to give their pretty frocks for the Magic Soap. And the roses showered their sweet petals into a big sack the Elf had brought with her, all ready to be scented up and give a lovely perfume.

The second Elf flew to Africa, and there she made friends with the king's daughter, who gave her cloves and Vervetiv—that is a scented root—rather like our sweet grass.

And the third Elf went to India, and found Patchouli—a plant whose leaves smell something like mint, and the pretty yellow wood of the sandalwood tree, which is very fragrant.

But the fourth Elf had the most dangerous time, for she daintily flew to an island near Italy called Messina, where there lived some fierce fruit called Bergamots, which were very nasty and disagreeable, but who nevertheless were exquisitely perfumed cats. The Elf crept up when the whole tree-folk were asleep and snipped off a bit of their coats here and there where they would not be missed—and was just tiptoeing away when a big fat Bergamot awoke and with a great yowling howl fell on her and crush her. But the Elf called to the Flower Fairies to help her, and they seized her quickly and hid her beneath a toad-stool till the Bergamots had gone to sleep again when she scampered off home with her treasure.

On her way she met the fifth Elf who had clear golden combs and from Coochin China, and sticky scented gums from the East Indies. And when they all arrived back they found that the Palace Pussy Cat who wanted to help his mistress had been all the way to Abyssinia (that is Bible Story Land), to see a cousin of his, the Civit Cat, who carries delicious perfume with him in a tiny bag and had gladly given it to Pussy; and Civit had kindly introduced the Fairy cat to a Chinese friend of his, the Musk Deer, who had some rare scent in a secret sack under his tummy which he also gave for the Christening Gift.

How pleased the Fairy Queen was! Quickly she carried the marvelous things to a Mortal friend of hers who was a soap maker and he worked with his helpers day and night and produced the most wonderful soap he had ever made just in time for the Christening.

And the Princess grew up so beautiful that she married the richest and handsomest Prince that ever was, and on her wedding day when the Fairy Queen came to see her, she said: "Test Queen quickly and right you ask your friend the Soap-Maker, to make heaps and heaps of my wonderful soap and give it to my little folk and all the big folk in the world. I feel so selfish enjoying it all myself."

"That is a good kind God-Daughter," said the Fairy Queen—and she told the soap maker, who promised to do as the Princess wished.

And he went on making the Magic Soap all his life, and after that his son and his grandson went on making it. And you know it is really your Baby's Own Soap, and it is because it is made of the perfume oils from all the wonderful things that the five Elves found all over the world that it smells so sweet and makes such heaps of fluffy creamy bubbles and helps little folk and big folk to grow as lovely as the day is long.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Aviators Thrill Spectators

Exhibition Of Spectacular Parachute Jumping Staged At Ottawa.

As nonchalantly as bathers taking a morning plunge, 12 officers and non-commissioned officers of the Royal Canadian Air Force recently tumbled into space from a height of 2,000 feet in one of the most spectacular exhibitions of parachute jumping ever staged in Canada. The display was remarkable in that every flier who went aloft completed what is probably the most hazardous part of the Air Force training with landings that were perfect or near perfect.

Of the dozen daring aviators who performed the feat, ten were negotiating their first parachute leap.

Pine forests that were a rich source of amber once spread over northern Europe.

Let these 6 vital Salts
rid you of
PIMPLES

Would you like quickly to free yourself of those hideous pimples—those unsightly blackheads—and have that smooth and soft skin perfection you've always envied?

Do you wish to have eyes as dazzling and bright as water dancing in a summer's sun?

Would you like to enjoy glorious health with plenty of energy and possess a keen mind?

Then take a quarter teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast!

Kruschen is a combination of the six vital salts which your nerves, hands and body organs ought daily to receive from food if they're to function correctly and which are impossible to obtain in these days of modern cooking. Kruschen swiftly clears your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet, and a health perfection, you didn't think possible!

SUNDAY SCHOOL LESSON

MAY 10

THE PARABLE OF THE POUNDS

Golden Text: "It is required in stewards, that a man be faithful."—1 Corinthians 4:2.

Lesson: Luke 19:11-26.

Devotional Reading: Psalm 103:11-18.

Explanations and Comments

The Reason For Giving the Parable, verse 11.—Jesus and his disciples were approaching Jerusalem, and many were expecting that Jesus would enter into the city to be an inauguration of the Messianic Kingdom. Jesus knew that He was going to face a country, but they supposed that the kingdom was immediately to appear. They looked for it to appear suddenly from the outside instead of gradually from within. They focused their attention on the fact that they were about to enter into a reward, while Jesus put the emphasis on the fact that they were about to enter a trust. Jesus gave this parable to warn those who wished Him to head a revolution and establish His kingdom by force that it would come only by patient faithfulness.

The Parable Of The Pounds, verses 12-26.—Jesus begins His parable with the statement that a certain nobleman went into a far country, to receive for himself a kingdom, and to return. Calling ten servants, he gave each a pound and bade them trade therewith till he returned. A pound, translated a pound, is equal to one hundred drachmas; a drachma was a coin worth about eight pence, or sixteen cents, R.V.M. The sum was small, about sixteen dollars, but it was a test of their faithfulness. In the similar parable of the talents different sums were entrusted to three men.

To these servants Jesus said, "Trade ye herewith till I come."

Wycliffe's Version reads "Merchandise till I come." The word "occupy" in the King James' Version at the time the translation was made had the meaning of "use."

On His return to judge the world (in the interpretation of the parable, the nobleman is Jesus Himself), he calls for a settlement with his servants, to learn how faithful they have been to their trust. The case of three, two faithful, and one unfaithful, is taken as typical of all. The first had gained ten pounds more, and is rewarded by being given authority over ten cities. The second had gained five pounds, and is placed over five cities. The third had done nothing.

"Life is God's sacramental gift To man for his empriseing."

The talent given into his care For his soul's exercising.

A sacred trust bestowed on him For his immortalizing.

And he who lends will one day ask His own again with interest; See to it then, lest thou be found Of those who failed him in the test."

—John Oxenham.

"Lord, here is thy pound," the third one said, "which I kept laid up in a napkin," and then he excused himself by accusing his lord of being an austere man who would require him to make up whatever loss there might be and would keep whatever profit he might make, so that he himself would be no better off for all his labor and trouble. "Thou takest up that which thou layest not down, and repeat that which thou dost not apply. Thy expression of bewilderment applied to grasping persons."

Persian Balm—the perfect aid to beauty. Essential to real feminine distinction. Results always in the higher expression of beauty. It keeps the hands always soft and flawlessly white. Indispensable to the whole family. Imparts added charm to the mother. Serves the father as a hair fixative and cooling shaving lotion and protects his tender skin. The child, Persian Balm is the true toilet requisite.

Zeppelin May Visit Arctic

Eskeneer Hopeful That Polar Flight Can Be Financed

Negotiations which have been carried on at Berlin between Dr. Hugo Eckener and various interested persons on a possible Zeppelin North Pole flight make the flight seem more likely than at any time heretofore, the Graf's veteran commander has intimated.

"Our great and only difficulty throughout," he said, "has been the question of financing the polar flight, but I am quite hopeful that this difficulty will be overcome."

It Testifies For Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it, for coughs or colds, for aches or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantees. This shows why this Oil is in general use.

Quickly Ends Itch of
ECZEMA

"ECZEMA-SALVE" ANALGESIC OINTMENT
My baby had a bad case of eczema. But as soon as I applied "Eczema-Salve" he stopped scratching and crying. His skin soon cleared. — Mrs. J. Laurence, Monticello, Calif. "Eczema-Salve" ends itches on all druggists.

Horsepower Going To Waste

Electricity Could Be Produced At Grand Falls In Labrador

Four million horsepower of electricity was "going to waste" at Grand Falls, in Labrador, Sir Wilfrid Grenfell, famous medical missionary to the coast of Labrador and Northern Newfoundland, declared, during a lecture at Montreal. Sir Wilfrid said he was attempting to demonstrate to governments that Labrador may be rich in minerals and other natural resources.

IF YOU CAN'T NURSE YOUR BABY—try EAGLE BRAND

THOUSANDS of mothers have found that Eagle Brand is ideal for infant feeding, where they are unable to nurse their own children.

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, insulating the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

ACTION TAKEN BY FRANCE WILL AID SALE OF WHEAT

Winnipeg, Man.—France's increase in the percentage of foreign wheat to be mixed with the domestic product will "help a little" in improving exportation of Canadian grain, according to A. P. White, president of the Winnipeg Grain Exchange. France, it is announced, increased the percentage of foreign wheat for mixing to 25 per cent., and Mr. White believed that this move would aid somewhat in decreasing the Canadian surplus but he expected no drastic rise in Canadian exports.

"Any removal of restrictions against foreign wheat on the continent tended to improve Canada's position," Mr. White stated. He also intimated that it would benefit other countries shipping wheat to France. He was unable to state whether the increase in the percentage of foreign wheat for mixing, made by France several weeks ago, had caused any undue jump in Canadian shipments to that country, but he believed the jump to 25 per cent. was bound to relieve the situation in this country slightly.

"Germany," Mr. White revealed, "is at present contemplating the lowering of her tariff against foreign wheat which would aid further in the clearing of Canada's surplus." The European countries, he said, will shortly come into the market for wheat, resulting in a lowering of all tariffs and an increased demand for the Dominion's product.

John I. McFarland, general manager of the Central Selling Agency of the Wheat Pool, believed France's action gave a brighter outlook for the removal of Canadian surplus. Several weeks ago, he said, France increased the percentage and it caused an improvement in export. "The raise to 25 per cent," he added, "will be welcomed."

Firmer Hand in India

Believed That Lord Willingdon Will Inaugurate Stiffer Policy

Dondon, England.—Lord Willingdon takes up residence at the summer capital of India this week-end and it is generally believed he will inaugurate a policy somewhat stiffer than that of Lord Irwin.

Sir Geoffrey Demontmorancy, governor of the Punjab, said recently that the Punjab government's policy of toleration had bred licence, and would not be continued. The Punjab government, he said, would no longer stay their hand, but would deal properly with breaches of the law. The situation in the other Indian provinces is similar to that in Punjab.

Prospects Good For Cattle Shipments

Increased Demand From Great Britain Is Indicated

Montreal.—Shipments of Canadian cattle to Great Britain are being well maintained and evidence indicates that there will be an increased demand from Great Britain as the season progresses. The first shipment from Montreal this season left April 30, aboard the "Manchester Commerce," taking 42 head, while seven other lots are booked for May and June. All shipments will average around 400 head.

War Claims Heard

Ottawa, Ont.—A total of 457 cases have yet to be reported by the war claims commissioner, Errol McDougall, Montreal, of which 308 claims have already been heard, leaving a balance of 149 cases. If, however, jurisdiction is admitted in the claims relating to the Armenian massacres, which were filed in 1920-21, there will be an additional 271 cases yet to be reported on.

Canada-Mexico Auto Route

Mexico City.—Automobile travel from Canada to Mexico City will soon be possible when a road from here to Laredo is opened. Only a small link remains to be completed. While not yet surfaced, the highway provides a passable route for motor cars.

W. N. R. 1588

Searching For Lost Explorer

Ship With Airplane Carrying Provisions Has Left Iceland

Copenhagen, Denmark.—A wireless message received at Reykjavik, Iceland, purporting to be from Augustine Courtauld, British scientist who is lost in Northern Greenland, stated: "Absolutely without provisions."

An aeroplane which has left Iceland with the Iceland inspection ship "Ola," will fly from the edge of the ice barrier to Tsalok and to Angmagalik, searching for Courtauld en route. If the plane can find him it will drop provisions on the ice for his use.

He is believed to be somewhere in the vicinity of the station at which he was left to spend the winter and obtain meteorological data for use of British Arctic air route expedition. The site of this station has not been located thus far by rescue missions which have gone to Courtauld's aid.

Preparing For Flight

Bert Hinkler, Australia Flyer, Interviewed in Toronto

Toronto, Ont.—Bert Hinkler, skilled flyer, who set the first record for the London-Australia flight in a light machine in 1928, is now at a local airport here, and much conjecturing as to his immediate plans is being made by local airmen.

Interviewed by a local newspaper, Hinkler did not deny that he was going somewhere, but refused to discuss the matter of a flight.

It is believed, however, that he will suddenly decide to fly to South America, thence across the South Atlantic, or perhaps fly to Australia via Vancouver. A North Atlantic hop via the northern route is also suggested as a possibility.

Armistice Day Is Now Fixed Date

To Be Called Remembrance Day and Celebrated November 11

Ottawa, Ont.—After a brief debate in private members' hour in Commons, the House endorsed a bill to change the name of "Armistice Day" to "Remembrance Day," and have it celebrated each year on November 11. At present it is celebrated on the Monday of the week which November 11 falls jointly with Thanksgiving Day. The date of Thanksgiving Day will be fixed as it was some years ago by the government.

Fishing Ships Forfeited

Ottawa, Ont.—Four ships of United States registry are condemned as forfeited to the Crown for fishing within in Canadian territorial waters on the Pacific Coast, under a judgment handed down by the Supreme Court of Canada recently. The judgment confirms the findings of the local judge in admiralty at Victoria, B.C.

Conference Will Decide

Ottawa, Ont.—The question whether a member of the House of Commons should or should not be compelled to vote in a division will be settled by a conference, whose personnel will comprise the leaders of all groups in the Commons. This was decided when Hon. C. H. Cahan, secretary of state, reverted to the matter.

Would Change Naval Treaty Plan

Paris, France.—Difficulty in arriving at an agreement on the exact meaning of the Italo-French naval limitation treaty has led to an unofficial proposal from quarters close to the ministry of marine that France drop the treaty with Italy and each country make unilateral statements as to her naval needs.

Many Deported

Ottawa, Ont.—Of those who came to Canada under the 3,000-family scheme, 568 persons, including men, women and children have been deported. Hon. W. A. Gordon, Minister of Immigration and Mines, gave this reply in the House of Commons to a question by H. E. Spencer (U.F.A., Battle River).

President Of Canadian Press

Toronto, Ont.—M. E. Nichola, vice president and managing director of The Winnipeg Man, Tribune, was elected president of the Canadian Press, succeeding John Scott, managing director of The Toronto, Ont., Mail and Empire, who for personal reasons declined a third term.

NOTED ECONOMIST

Sir George Paish, internationally-known economist, who said while in Montreal: "If the five-year plan succeeds it will mean the end of communism in Russia."

Value Of Corn Imports

Runs Into Millions and Duty May Be Demanded

Ottawa, Ont.—Canada is importing, for purposes other than distillation, about 12,000,000 bushels of corn worth in excess of \$10,000,000 every year. This information, given to the House of Commons in answer to a question some days ago, may be the basis of a demand for a duty on imported corn, which now enters the Dominion free.

The corn, brought from the United States, and even from the Argentine in some degree, is used for feeding livestock in the central provinces. It is the claim of some western M.P.'s that the eastern market for feed should be belong to prairie growers of barley and other coarse grains. A demand for the reduction of freight rates on these grains, when shipped for domestic consumption, has already been voiced. A stiff duty on foreign corn may now be asked.

British Economist Gives Opinion On Depression

Might End In Three Months Says Sir Josiah Stamp

New York.—The end of the present economic depression in Canada and the United States will not be in sight before the end of the next three months, Sir Josiah Stamp, noted British economist, told the Canadian Press. The depression will probably come to an end in both countries simultaneously, he said, although recovery in the United States might be slightly more rapid than in Canada. "I do not want to say the depression will end in three months," he said, "but I will say it can't end before that time." Some time ago I said it would not end before May. It has not ended and I now believe it cannot do so before the end of another three months."

King and Queen of Siam

King Pradabhipok and Queen Rambai-Barni, monarchs of Siam, posed briefly for cameramen aboard their special Canadian Pacific train at Vancouver before starting their trip to New York via the Canadian Rockies and Chicago. Indisposed when the Canadian Pacific liner "Empress of Japan" arrived at Victoria and Vancouver after a record-breaking voyage from Yokohama, His Majesty King Pradabhipok was unable to receive the official delegation of welcome. His first public appearance was when he walked from the royal suite aboard the big white liner to the waiting royal train parked beside the ship.

Fatal Plane Crash

Two Lives Lost When Machine Crashes At Brandon

Brandon, Man.—The first major plane crash in the history of Brandon brought death to two young airmen when their machine crashed from a height of 1,000 feet and burst into flames near the local aerodrome.

The victims were: William Clark, 21, owner of the plane, and son of Col. and Mrs. F. J. Clark, Brandon, and William Britten, 27, pilot of Wawanesa, Man.

Returning from a flight to Wawanesa, the airman were preparing to land at the aerodrome when the plane veered into spin, exploded and burst into flames.

Like a rocket, it dived to earth, bringing instant death to the pilot and owner.

It was some time before the flaming wreckage could be approached by airport attendants, and the bodies, entangled in the debris, were charred beyond recognition. Nothing was left of the plane but the bare, twisted steel work.

Hundreds of persons flocked to the scene of the crash, and police had great difficulty in keeping the crowds away from the fire-stricken wreckage.

Steamer Beothic Will Make Annual Expedition

May Again Make Attempt To Reach Winter Harbor, Melville Island

Ottawa, Ont.—The annual expedition of the steamer "Beothic" to the Canadian Arctic archipelago will be carried out as usual this year by officials of the Northwest Territories branch of the Department of Interior and the Royal Canadian Mounted Police. The "Beothic" will leave for the Arctic about the end of July and visit all the northern police posts as well as the various posts where "N.W.T." men are stationed.

It is understood there will be another attempt to reach Winter Harbor, Melville Island, to inspect the cache there. This cache was put in over 20 years ago, and while it has been visited by travellers with dog teams, a boat has not called in there since it was established.

Last year an attempt to reach the cache was unsuccessful, due to ice conditions.

Princes Welcomed Home

Prince Of Wales and Prince George End Long Journey

Windsor, England.—The Prince of Wales and his brother, Prince George, ending an 18,000-mile travel mission to South America, returned to the family hearth and were joyfully welcomed by the King and Queen.

Their arrival at Windsor Castle from Paris after an absence of three and a half months was the occasion for a happy family re-union. Their parents and the Duchess of York, greeted them enthusiastically. Princess Elisabeth, their niece, threw her arms about their necks and gave them each a loud kiss.

UNEMPLOYMENT INSURANCE PLAN IS FORTHCOMING

Ottawa, Ont.—The government hopes to submit to parliament "at the earliest possible moment" legislation providing for some form of unemployment insurance. A statement to this effect was made by Premier R. B. Bennett in the House of Commons.

The prime minister, however, made it clear that such legislation can only be submitted after careful consideration and the gathering of the fullest information. The department of finance will not act without preliminary investigation. "That course of action would spell disaster; it would bring suffering, not happiness, to those concerned."

The prime minister made one definite declaration. He would never support a system of non-contributory insurance. Canada could not stand a system such as that in operation in Great Britain, with its tremendous drain on the exchequer.

The question of unemployment insurance came before the House in the form of a motion placed on the order paper by A. A. Heaps, Labor member for Winnipeg North. It called upon the government to "take into consideration the immediate establishment of a federal system of insurance against unemployment, sickness and invalidity." He submitted his proposal not as a cure for unemployment, but merely as a palliative, said the Labor member at the outset of his speech. The federal government should "give the lead" to the provinces in such legislation.

The word "immediate," should be deleted from the resolution, suggested Mr. Bennett, and the word "contributory" be included. It was impossible for the government to deal immediately with a matter which might require months of research and actuarial work; also, Canada was about to take a census, and the information thus gathered would be of great value in reaching conclusions as to the nature of the proposed scheme. Co-operation of the provinces would be necessary.

Support of the motion was voiced by Mr. King. Modern conditions, involving the use of invention, resulted in men being thrown out of work, and countries were faced with the necessity of providing unemployment relief or unemployment insurance. He favored the latter. If a Dominion old age pensions scheme could be devised, he saw no reason why a scheme of unemployment relief should not also be evolved.

Grain Probe Report

Report Containing 40,000 Words To Be Tabled In House Of Commons

New York, N.Y.—The work of the Royal Grain Commission, appointed by the Canadian government to decide whether or not trading in grain futures is injurious to the interests of the producer, came to an end as its members signed their report aboard the "Mauretania," just before she sailed for England bearing Sir Josiah Stamp, noted economist, who served as chairman of the commission.

The report, which, members said, is about 40,000 words in length will be taken to Ottawa by L. B. Pearson, secretary to the commission, and it is expected, will soon be tabled in the House of Commons.

Thresh Last Year's Crop

Saskatoon, Sask.—Threshing will be completed in the territory around Prince Albert this week, according to T. F. Mollard, travelling superintendent for the Pool Elevators, who has returned from an inspection trip in that area. Due to wet weather last fall and the October snow storm a considerable quantity of grain remained in the stock. This grain has wintered well and is for the most part grading straight.

Saskatchewan Musical Festival

Moose Jaw, Sask.—Entries are being received in large numbers for the Saskatchewan Musical Festival, which will be held here June 1, 2 and 3. It was learned recently from a record-keeping official. While no definite figures can be quoted at the present time, the entries are stated to be quite up to expectations.

Stony Plain and District

The Town Council hold its regular monthly meeting this evening.

The Ladies Aid of the United Church held its monthly meeting yesterday afternoon at the home of Mrs. Michael.

Sunday next, May 10th, is Mothers' Day. Mr. J. F. Clarke has just got in some handsome presents suitable for Mother, at the Stony Plain Pharmacy.

Mr. "Bobbie" Downs, the popular young society man, who was with the Pontiac Garage for several years, has accepted a position with a service station in the City.

Mr. and Mrs. John Schram are leaving today for Vancouver, to spend the summer, and expect to return in the Fall.

Mr. and Mrs. Duthie, former residents of Stony, were week end visitors with Mr. and Mrs. Michael.

Mr. and Mrs. E. H. Baron moved this week to the Spike house on Strauss ave.

Mr. John Reiser, the well-known mechanic, has taken over the repair department at Stony Plain Motors. He is said to have been the happy recipient, last week, of a good-sized bonus from the U. S. Government. John had been a member of the A. E. F. in France.

Martin's Orchestra has been engaged to play for the dances at Edmonton Beach for the coming season, Proprietor J. A. Barrie announces. 10 cent dancing.

Members of the Walther League are holding an All-Seasons Social next Sunday evening at St. Matthew School No. 1.

Messrs Hy and Philip Junior Trapp started yesterday on a motor trip to Jasper Park.

Mr. Armbruster announces the opening tomorrow, May 8th, of a Paint department at his mill, where Monarch Pure Paint may be obtained at exceptionally low prices.

Schedule of Mails.

From the East—Every midnight except Saturday.

From West—Mon., Wed., Friday mornings.

To the East—Every morning except Sunday.

To West—Sun., Tues., & Friday midnight.

YOU CANNOT AFFORD TO BE WITHOUT YOUR LOCAL PAPER—SUBSCRIBE NOW AND KEEP PAID UP.

By Way of Economy

Many a battery is discarded before its time, simply for the lack of a little attention. If your battery is in good condition, we tell you so. If it needs repair, we will do the work right and at fair prices.

E. H. PIDGEON, AGENT.

Basketball Games.

Several carloads of basketball fans motored in to the Arena Monday night, to see the Grads beat Forest Park Cardinals from Chi. by a good score.

Stony's Boy basketballers are determined to win some games, and were out Tuesday at 6 a.m., practising the art of chucking the inflated spheroid thru a hoop.

Comet Boys played Stony Boys on the latter's court Sunday evening, and beat the Stony team 18-8. C. Fuhr, referee. The Girls did not play.

The next games are—May 7th, G. Valley at W. League; May 10, Comet at G. Valley; May 12th, Stony at Comet.

Spruce Grove News.

Wednesday next, the 13th, is the date on which the time expires for entering protests to the proposed incorporation of the village.

Mr. Joe D. Miller, who has been under the care of an Edmonton physician, is making good recovery from a minor operation.

Mr. Loeblich is putting in about three acres of potatoes this season.

The wet grounds on the local diamond on Sunday prevented the proposed ball game from being played.

The Councillors of Spruce Grove Municipality held their regular meeting on Monday.

The new gramophone record at the Restaurant "The Robin Redbreast Song," music by W. Rocks, is proving quite an attraction. The Stock Inspector comes in every afternoon at 4.10 to play it.

Mr. and Mrs. J. H. Miller, of Edmonton, were Sunday visitors with Mr. and Mrs. J. D. Miller.

Get Your Radio License.

The Dept. of Marine and Fisheries, a sub division of which issues radio licenses, has started a campaign against those who have not taken out a license for 1931. Designed to facilitate prosecutions of persons operating radio sets without a license, an amendment to the Canada Evidence act was passed by the House of Commons last week. This amendment provides that the fact that a person has no license may be proved by the affidavit of the officer of the records.

"Nix on the Purfessers."

The professors up at the University of Alberta seem to take a mean pleasure in exploding all our harmless little fancies. They deny that we have any gold on the Livingstone. They deny that there's platinum up near Edson. Now they deny there's such a thing as King Tut wheat; and the next thing they'll be saying is, there ain't no Santa Claus—High River Times.

Raising Purebred Stock

Cattle clubs formed under the new federal livestock policy by which three purebred bulls are loaned for 6 years with changes made every two years for each 3 clubs of a breeding centre, have made good progress in Alberta. To date there are 53 bulls scattered all over the province.

Each centre selects 1 breed and while the majority of the clubs to date have secured beef and general purpose breeds, a number of clubs have requested bulls of the Ayrshire, Holstein and Jersey breeds, also Red Polled. Most of the bulls already placed have been Shorthorn, with 40 p.e. Angus, Herford and other breeds.

The Domestic Animals Act
(Municipalities).

Sale and Redemption of Im-
pounded Animals (Sec. 48.)

Notice is hereby given under
section 48 of The Domestic Animals
Act (Municipalities) that 1
Sorrel Mare, no white markings,
no brand, was impounded in the
pound kept by Jos. Kulak, on the
SE. 26-52-1w5, on Friday, the
10th day of April, A. D. 1931, and
that the said animal was sold on
23rd day of April, 1931, to William
Miller, Stony Plain, and that the
said animal may be redeemed by
the owner or his behalf within a
period of thirty days from the
publication of this notice in the
Alberta Gazette, upon payment of
all fees and costs due to the Mun-
icipality and the purchase of said
animal.

For information apply to the
undersigned.

E. H. PIDGON,
Sec. Treas. of the Municipality of
Inga No. 520.
Post Office, Stony Plain.

Dollar Wheat ?

Edmonton Bulletin: Prem-
ier Anderson says negotia-
tions are under way which
may result in the Cooperative
Wholesale Society of Great
Britain agreeing to buy thirty
million bushels of Saskatche-
wan wheat per year at a dollar
a bushel.

If the deal goes thru it will
be more important for what
it signifies than for the direct
results to the grain growers
or to the grain trade. Thirty
million bushels is a small
fraction of the amount west-
ern Canada has to market
abroad every year.

But the prospective British
buyers will hardly tie them
selves up in an agreement to
pay more than what they
think the open price will be.
If they agree to pay \$1 a bu-
shel it will be because they see
dollar wheat in prospect. The
announcement that British
buyers expect to have to buy
on that basis in future would
put heart into all the western
wheat growers and life into
general business.

Inga Councillors Meet.

Inga Councillors held their
regular meeting in the town
hall on Friday last, with Reeve
F. H. Kreye in the chair, to
consider the passing of the
Zoning Bylaw of the Edmon-
ton Beach district, as the time
for entering protests to the
passing of the bylaw by the
Council, had expired.

The bylaw was given a sec-
ond reading. The third reading
(and final passing) will take
place at the next regular
meeting. This bylaw shall
come into force and take effect
so soon as approved by the
Minister of Municipal Affairs.

Visitors to the Council board
included Messrs R. English
(Deputy Minister of Munici-
palities) and Mr O'Brien, of
the Dept. of Education. These
interviewed the Councillors
with regard to the financial
situation.

After some discussion, the
Reeve and Councillors Howat
and Akih were appointed a
finance committee, to go in
to Edmonton this week, and
arrange matters with the De-
partment and the manager of
the Municipality's bank.

Holborn Happenings.

Several fires had been run-
ning thru the Holborn district
last week. On Friday noon a
hurry call was sent in to Stony
Plain, asking for fire fighting
volunteers, as a running fire
was threatening a granary and
other buildings on the farm of
Mr H. McKinnon. A squad
was quickly organised and
motored down to the scene.
After an hour's work the fire
was got under control, and the
buildings saved.

This Spring sees another
attempt, on a big scale, to
gather up the shiny goldflakes
from the river bed. On Sunday
last there was anchored near
the ferry jetty a large sized
hydraulic outfit with which it
is the intention to operate on
the river bars in this region.
The initial tryouts are said to
have been quite successful.

The Side Paths in Disrepair.

So many teamsters are using
the by-paths on the gravelled
Baseline that it is probable
the municipalities will be asked
to keep these in repair, as
auxiliary roads. One trusting
teamster who was travelling
on the sidepath the other eve-
ning had his rig mired at the
corner of the Henry Schellen-
berger farm, and hooked his
team to the tail of the chassis
in an effort to retreat, but
without avail. Finally, Mr
Schellenberger was appealed to,
and he drove out with his
spanking four-horse outfit,
and quickly had the partially-
submerged outfit up on the
gravelled road.

The Bridge Wasn't There.

On Friday evening last,
when Mr Val Pailer Jr. was
proceeding in his Maxwell
sedan to the social evening at
Muir Lake Community hall,
and had reached the creek at
Adolf Krenz's farm, his auto
dropped down several feet.
On investigation, the young
man found the bridge had
been burned that afternoon
by a prairie fire. Help was im-
mediately forthcoming and the
automobile put back on the
roadway. Outside of a scorch-
ing for the car and a scare for
the driver, very little damage
was done.

Your choice of these selected used cars

1929 CHEVROLET COUPE

Just the car for a salesman or a trav-
eling man. Its famous six-cylinder en-
gine has been tuned up to deliver new
car performance. Its body provides big
car riding ease. No car on the market
can offer such value at this price.

\$450.

1927 CHEVROLET COACH

Although slightly over three years
old has been driven less than many
cars only ten months old. Where can
you beat it for

\$325.

1928 Studebaker Dictator Sedan.

A wonderful little family
car; original finish, new
tires, upholstery very
clean; motor perfect; come
in and drive it, you won't
be sorry.

\$750.

1927 Chevrolet Coupe.

Its original owner was a
professional man who kept
it in perfect condition.
When you see its flow-
ing grey Duco, its un-
worn tires, its spotless up-
holstery, you'll agree it's the
greatest value in town.

\$250.
